## Finally, Our Dream Kitchen

*“As empty-nesters we had specific desires.”*

Through the years and with the many moves and changes, one thing remained the same: Our kitchen was always the busiest room of the house and took the most wear and tear. Once our kids were raised and out on their own, we decided to finally build the kitchen of our dreams where we could cook fantastic meals together, and enjoy the company of our friends and children & family when they come for visits. We had some ideas of what we wanted and didn't want, but weren't quite sure how to pull it all together.

We called Jerry . and he was great! First, he listened to us and really understood what we wanted. He asked a lot of questions and made us think about things we really had not considered. We did have a budget in mind, but most of all we wanted to be sure that when the dust settled we would have the kitchen we wanted. Jerry designed and built our new kitchen, which features:

- Gorgeous furniture grade custom cabinetry with meticulous detail.
- Drawers that open fully and close effortlessly and do so quietly.
- A beautiful walnut island with a custom finish that my husband and I worked on with Jerry to develop.
- Cleverly concealed refrigeration storage.
- Ample pantry storage and fantastic appliances.

Today we have a wonderful kitchen that makes every day a joy . and opportunities to entertain a special treat.
